

You're a photographer. And whether you're a budding amateur, a vacationer, or a full-on pro, you benefit from using the best equipment.

Buying it can be expensive though, especially if you only need it for a few days or a few weeks. That's why we offer convenient and cost-effective rentals on all top-quality photography equipment.

We stock a huge selection of Canon, Nikon, and Olympus lenses, camera bodies, and accessories, and we get them to you with an easy-to-understand reservation system, responsive and friendly service, and two-way FREE shipping.

ABOUT

The [Pro Photo Rental](#) team is passionate about good photography, and passionate about making it accessible to as many people as possible. We started in 2007 with a goal to improve a camera and lens rental business we found sorely lacking. And in the time since, we've raised the bar on how people like you can sample the best photo equipment on the planet.

Our approach is simple: We serve our customers by getting them the equipment that serves *them* best. We never try to "upsell," and we won't push something on you if you don't need it.

In other words, we offer a people-centered approach to renting top-quality equipment. Based on the feedback we've received, we're confident it has been good for our customers, and good for photography.

We're glad to have made a contribution, and we're excited to continue to do so.
